## Access to Banking and Capital Markets

We are excited to announce the annual conference of the **URPP Financial Market Regulation (University of Zurich)**, this year jointly organized with the **European Banking Institute (EBI, Frankfurt)** and the **Europa Institut (UZH)**. This hybrid conference (all day) will take place at the University of Zurich (Main Auditorium) on Friday, 23 June 2023.

The scope of the conference will include the latest developments in the area of access to banking and capital markets. We will have, among other things, a critical look at the growing tendency to restrictions, from both a legal and an economic perspective. A range of international speakers will discuss the cross-border perspective for providers, the challenges posed by Distributed Ledger Technology (DLT), and the recent developments for financial services at international level.

The invitation for registration will follow soon.

We are looking forward to seeing you in Zurich (or online) in June.

Best regards,
